Special Calculations:

- A. In the case of residential customers taking optional Prepaid Residential Service, the RES surcharge will be calculated daily at \$0.0023006 per kilowatt-hour of retail electricity purchased by the consumer that day, until the monthly surcharge cap of \$0.75 per service has been reached for the monthly billing period applicable to the service address.
- B. In the case of unmetered services, MEC shall, for purposes of billing the RES Surcharge and subject to the caps set forth above, not bill an additional RES surcharge on unmetered service to a member that has a metered service with MEC. For any new unmetered services MEC will use the lesser of (i) the load profile or otherwise estimated kWh required to provide the service in question; or (ii) the service's contract kWh for the purposes of RES Surcharge billing.

The RES Surcharge is in addition to all other rates and charges applicable to service to the customer. The applicable sales tax in Arizona will be added to bills where required. The Cooperative is authorized to pass on to the customers the applicable proportionate part of any taxes or government impositions, which are or may in the future be assessed on the basis of the gross revenues of the Cooperative.
