

## RENEWABLE ENERGY INCENTIVE PROGRAM—Step 4

### *SUBMITTAL OF FINAL REBATE APPLICATION FORMS*

After the Solar or Wind Generation system has been installed and passed all City and/or County building inspections, the Mohave Electric Cooperative member submits the following paperwork to finalize the rebate application procedure:

- ❖ A copy of the final bill or invoice from the Solar/Wind Contractor
- ❖ Copy of the Building Permit
- ❖ Copy of the final Building Inspection
- ❖ The System Qualifications-Contractor Certification form with code requirements initialed by a licensed electrician (step 3)

At this point, all three steps are complete and now the system must pass system verification by Mohave Electric Cooperative's Energy Management Specialist and Operations Supervisor for compliance with MEC Interconnection Agreement.

**It is also important to remind you that you cannot activate or operate your system before it has passed the MEC verification.**

After the system verifications are passed, the rebate will be processed and issued to the Member.
