Other Charges

Other charges may be applicable subject to approval by the Arizona Corporation Commission.

Cooperative-Owned Lighting

The consumer shall execute a "Lighting Service Agreement" in accordance with the Cooperative's line extension policies. Security light installations and related appurtenances shall be owned, operated and maintained by the utility. All facilities installed on the consumer's premises shall be the property of the Cooperative.

Security light installations shall be controlled by light sensitive photo-electric cells.

Security light installations shall only be maintained by the Cooperative during normal working hours.

Security light installations may be inoperative during periods within a month, but such periods shall not cause the net rate per month to be adjusted.

Security light installations may be installed on a temporary basis in accordance with the Rules and Regulations covering temporary electric service.

The Cooperative reserves the right to remove lamp and appurtenances should it be called upon more than two times per year to repair or maintain lighting installations. Lighting service under this condition may be continued if the consumer agrees to pay for the additional service calls and costs incurred by the Cooperative.

Consumer-Owned Lighting

Security lights must be connected to the Cooperative's system by Cooperative personnel.

Security light installations shall be controlled by light sensitive photo-electric cells. The Cooperative reserves the right to disconnect service to those lighting consumers who fail to properly maintain photo-electric cells.

Security light installations and related appurtenances shall be owned and maintained by the consumer. All installations shall be properly fused to protect the Cooperative's system.

Security light installations may be inoperative during periods within a month, but such periods shall not cause the net rate per month to be adjusted.
