ACC Approved An Electric Energy Services Agreement (ESA) for Nucor Steel

ACC Decision #82128 establishes a streamlined process for regulatory review of electric Energy Services Agreements (ESAs) between utility providers and large-load customers. Under that process, an individual ESA requires separate ACC approval.

In 2024, the ACC has previously approved an ESA for a large-load industrial customer. In Decision No. 79421, Docket No. E-01750A-24-0087, the ACC approved an ESA involving Mohave Electric Cooperative, Arizona Electric Power Cooperative, and Nucor Steel.
